

*Emelita Inong*

Hi Mariza,

I just want to say thank you for planning and putting the trip together. My husband and I had a good time: spiritually and physically. This is our first pilgrimage and I really enjoyed it. Now I know what a pilgrimage is all about.

The climb of the Apparition Hill at Medugorje was a little bit tiring but it is all worth it. I had to do it twice. I was just not satisfied the first time. I came a long way and to be with the Blessed Mother for just few minutes did not really feel right. After the second climb, I felt better, I knew then that I could go home with peace of mind. I just wish we had more time so I could have also climbed the Cross Mountain. Maybe it wasn't meant for me to do that because I planned to go with the group who were going with Father but I could not get a sleep the night before.

I am pretty sure I will go on another pilgrimage.

By the way, will you please send me the questions and answers on the quiz that you made us answer during the trip? I have written some of them but it is not complete. I would like to use them for our Confirmation Classes. You mentioned about some website to look at but I did not write it down then.

Thanks again and more power to you.

God bless,

Emy
